# About Us

## How We Are and What We Do

---

**SUNTECH AND ALLIED INDUSTRIES** is a leading manufacturer of customized **automatic packaging machines**, delivering innovative, high-performance solutions for diverse industries. We specialize in **designing precision-engineered machines** that enhance **packaging speed, accuracy, efficiency, and operational reliability**.

With a **strong focus** on quality **manufacturing, advanced automation, and customer-centric innovation**, we provide end-to-end packaging solutions backed by expert technical support, installation, training, and after-sales service. Our commitment is to help businesses improve productivity, reduce operational costs, and achieve sustainable growth through reliable packaging technology.

## Vision

---

To become India's most trusted and globally recognized manufacturer of intelligent packaging machines by delivering innovative, efficient, and customized automation solutions that empower industries with superior productivity and long-term value.

## Mission

---

To design and manufacture world-class packaging machines that combine precision, durability, and advanced technology while delivering exceptional customer support, continuous innovation, and customized solutions that drive business growth across multiple industries.

# Market Challenges

## **Rising Labor Dependency**

Manufacturers face increasing labor costs and workforce shortages, affecting packaging efficiency and consistency.

## **Inconsistent Packaging Accuracy**

Manual and outdated systems often result in weight variations, product wastage, and customer complaints.

## **Growing Demand for Automation**

Industries require faster, smarter, and scalable packaging solutions to meet rising production demands.

## **High & Maintenance Costs**

Inefficient machines consume more power, require frequent maintenance, and increase overall operating expenses.

## **Limited Customization**

Many packaging machines cannot adapt to different products, pack sizes, or industry-specific requirements.

**The packaging industry is rapidly shifting toward intelligent automation, precision, and operational efficiency. Businesses need reliable, customized, and cost-effective packaging solutions that maximize productivity while minimizing downtime and waste.**

# Solutions

## Precision Packaging Automation

Advanced weighing and filling systems ensure accurate, consistent, and error-free packaging every cycle.

## Smart & Energy-Efficient Design

Optimized engineering minimizes power consumption, maintenance costs, and overall operating expenses.

## High-Speed Production

Automated machines significantly increase packaging output while reducing manual intervention and turnaround time.

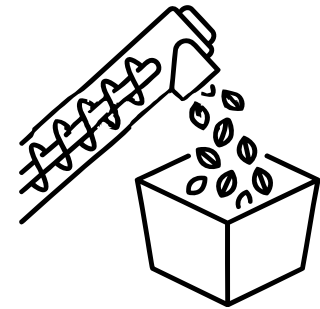

## Reliable After-Sales Support

Comprehensive installation, operator training, and responsive technical assistance ensure maximum machine uptime.

## Customized Machine Solutions

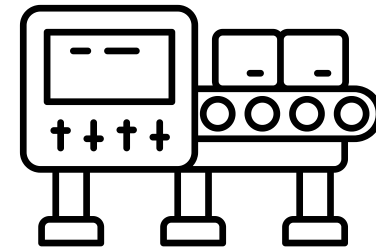

Tailor-made packaging systems designed to match diverse products, capacities, and business requirements.

# Offerings

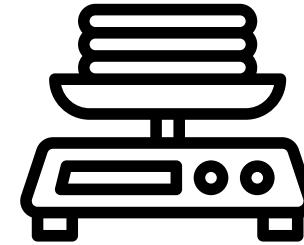

## Auger Filling Machines

High-precision machines for accurate packaging of powders, spices, flour, protein powders, and similar products.

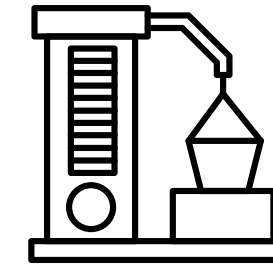

## VFFS Packaging Machines

Fully automatic Vertical Form Fill Seal machines for fast, reliable, and hygienic pouch packaging.

## Multi-Head Weighing Machines

Advanced weighing systems designed for snacks, dry fruits, namkeen, frozen foods, and other granular products.

## Wet Filling Machines

Efficient filling solutions for liquids, pastes, sauces, oils, detergents, and other viscous products.

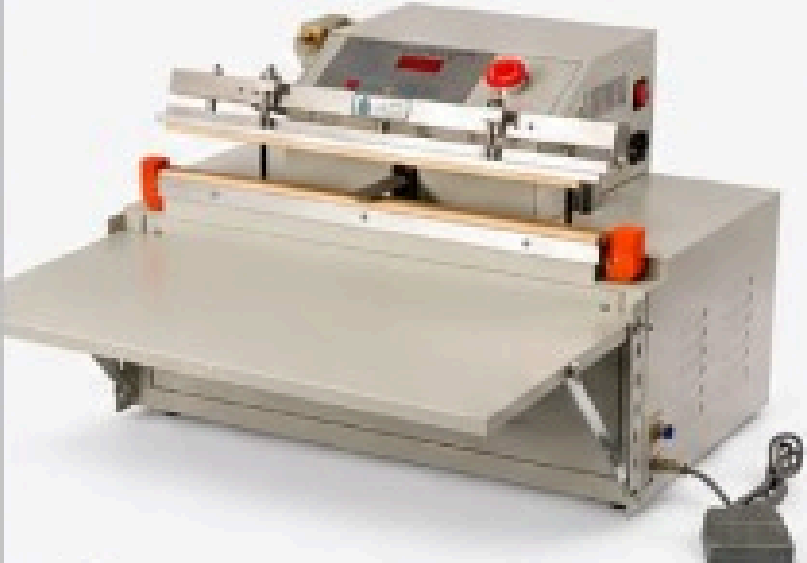

## Customized Packaging

Tailor-made packaging systems engineered to meet unique product specifications, and industrial requirements.

# Our Products & Service

**Pick Fill seal Machine**

**Multi-Head VFFS Packaging Machine**

**Automatic Multi-Head Weighing**

**VFFS 10/14 Head Machine**

**VFFS Auger Filter Machine**

**Weight Filter With Conveying System**

# Our Products & Service

**Easy PAC 2 Head Weigher**

**Augar Filter**

**Smart PAC Bagger**

**Liquid Filling Machine**

**Collar Type VFFS Machine**

**Labelling Machine**

# Unique Selling Proposition (USP): Why US

01

## Customized Engineering

Every machine is designed to match specific product, capacity, and packaging requirements.

02

## Precision & Reliability

Advanced engineering ensures high filling accuracy, consistent performance, and minimal product wastage.

03

## End-to-End Packaging Solutions

From machine design to installation, training, and support, we provide complete packaging automation services.

04

## Robust Manufacturing Quality

Machines are built using premium components and durable construction for long-lasting industrial performance.

05

## Responsive After-Sales Support

Dedicated technical assistance and timely maintenance ensure maximum uptime and uninterrupted production.

06

## Cost-Effective Automation

Our solutions improve productivity while reducing labor dependency, operational costs, and packaging errors.

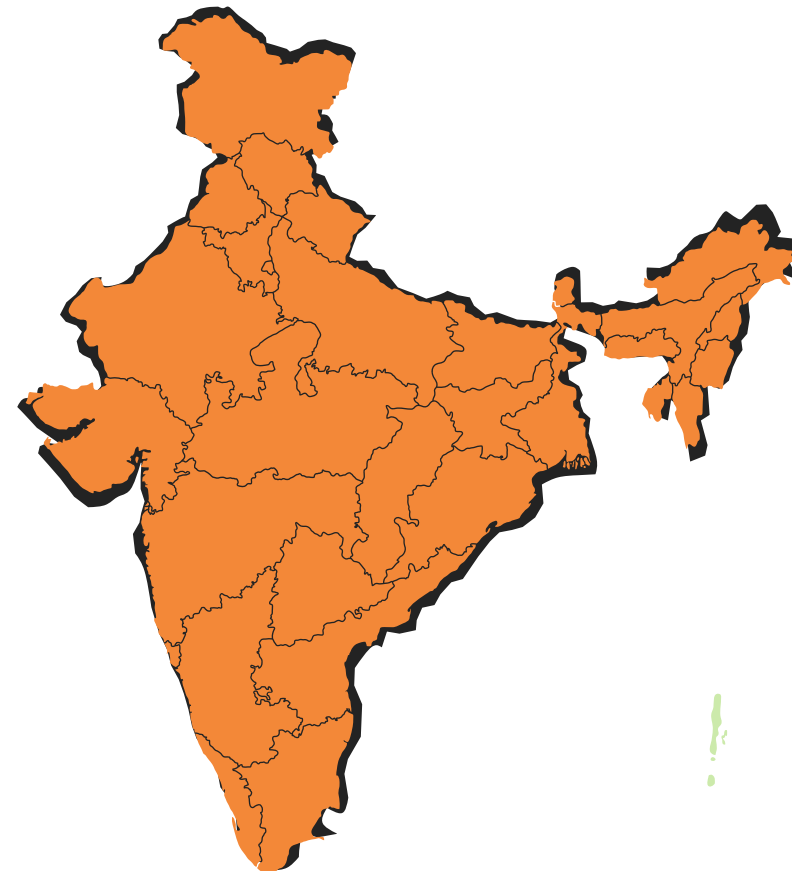

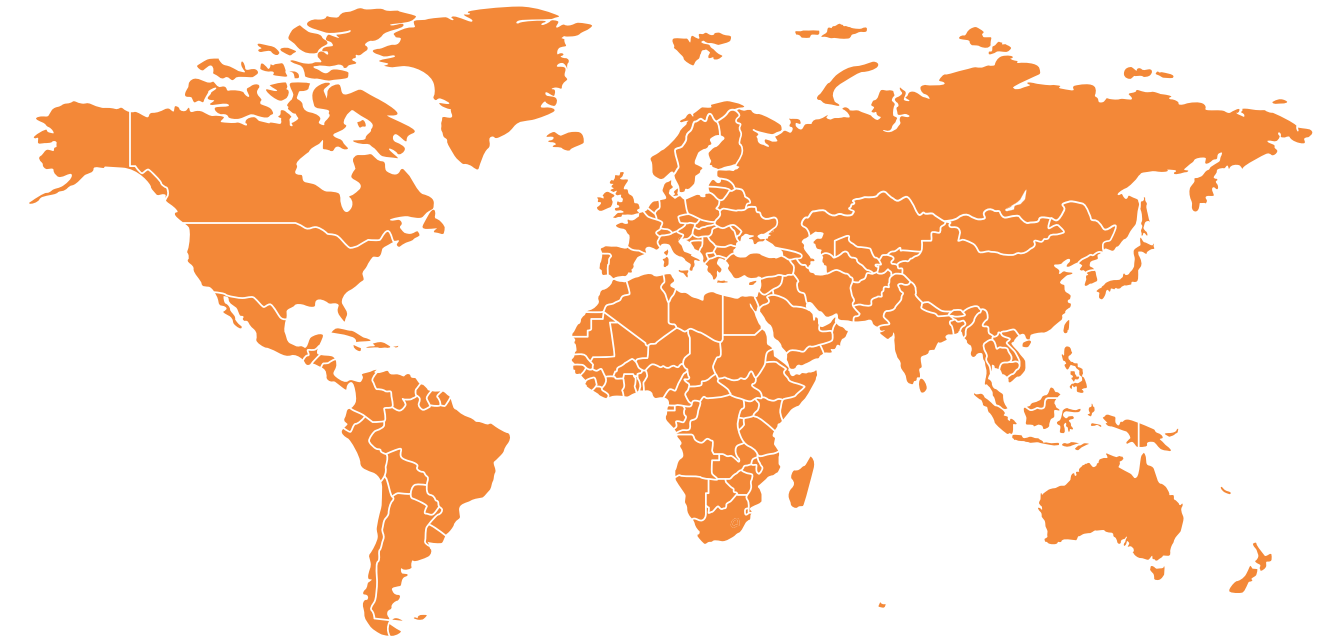

# Market Size

## Global Market Size

The global packaging machinery market was valued at approximately **USD 77.08 Billion in 2025** and is projected to reach nearly **USD 138.06 Billion** by **2034**, expanding at a **CAGR of 6.69%**.

**CAGR**  
**6.69%**

# STP Analysis

## Segmentation

- Food & Beverage manufacturers requiring automated packaging.
- Pharmaceutical & Chemical industries demanding precision filling.
- FMCG & Industrial businesses seeking scalable packaging solutions.

## Targeting

- Medium and large manufacturing enterprises.
- Businesses upgrading from manual to automated packaging.
- Companies prioritizing speed, accuracy, and productivity.

## Positioning

- SUNTECH AND ALLIED INDUSTRIES positions itself as a trusted manufacturer of customized automatic packaging machines, delivering precision-engineered, reliable, and cost-effective automation solutions.

# Competitve analysis

| Comparison Parameters | SUNTECH AND ALLIED INDUSTRIES | Local Manufacturers | Imported Brands | Standard Machine Suppliers |
|-----------------------|-------------------------------|---------------------|-----------------|----------------------------|
| Machine Customization | Strong                        | Moderate            | Basic           | Basic                      |
| Packaging Accuracy    | Strong                        | Moderate            | Strong          | Moderate                   |
| Product Range         | Strong                        | Moderate            | Strong          | Basic                      |
| Automation Technology | Strong                        | Moderate            | Strong          | Moderate                   |
| Manufacturing Quality | Strong                        | Moderate            | Strong          | Moderate                   |
| After-Sales Support   | Strong                        | Basic               | Moderate        | Basic                      |
| Cost Effectiveness    | Strong                        | Strong              | Basic           | Moderate                   |
| Delivery & Service    | Strong                        | Moderate            | Basic           | Moderate                   |

# Revenue Model: Diverse and Sustainable Revenue Model

01

## Packaging Machine Sales

Revenue from manufacturing and selling automatic packaging machines across industries.

02

## Customized Machine Solutions

Income from designing and developing tailor-made packaging systems for specific customer requirements.

03

## Installation & Commissioning

Charges for machine installation, setup, testing, and operator training at customer locations.

04

## Industrial Machine Sales

Revenue generated from selling automatic packaging machines across multiple industries.

## Potential Revenue Streams

Annual Maintenance  
Contracts (AMC)

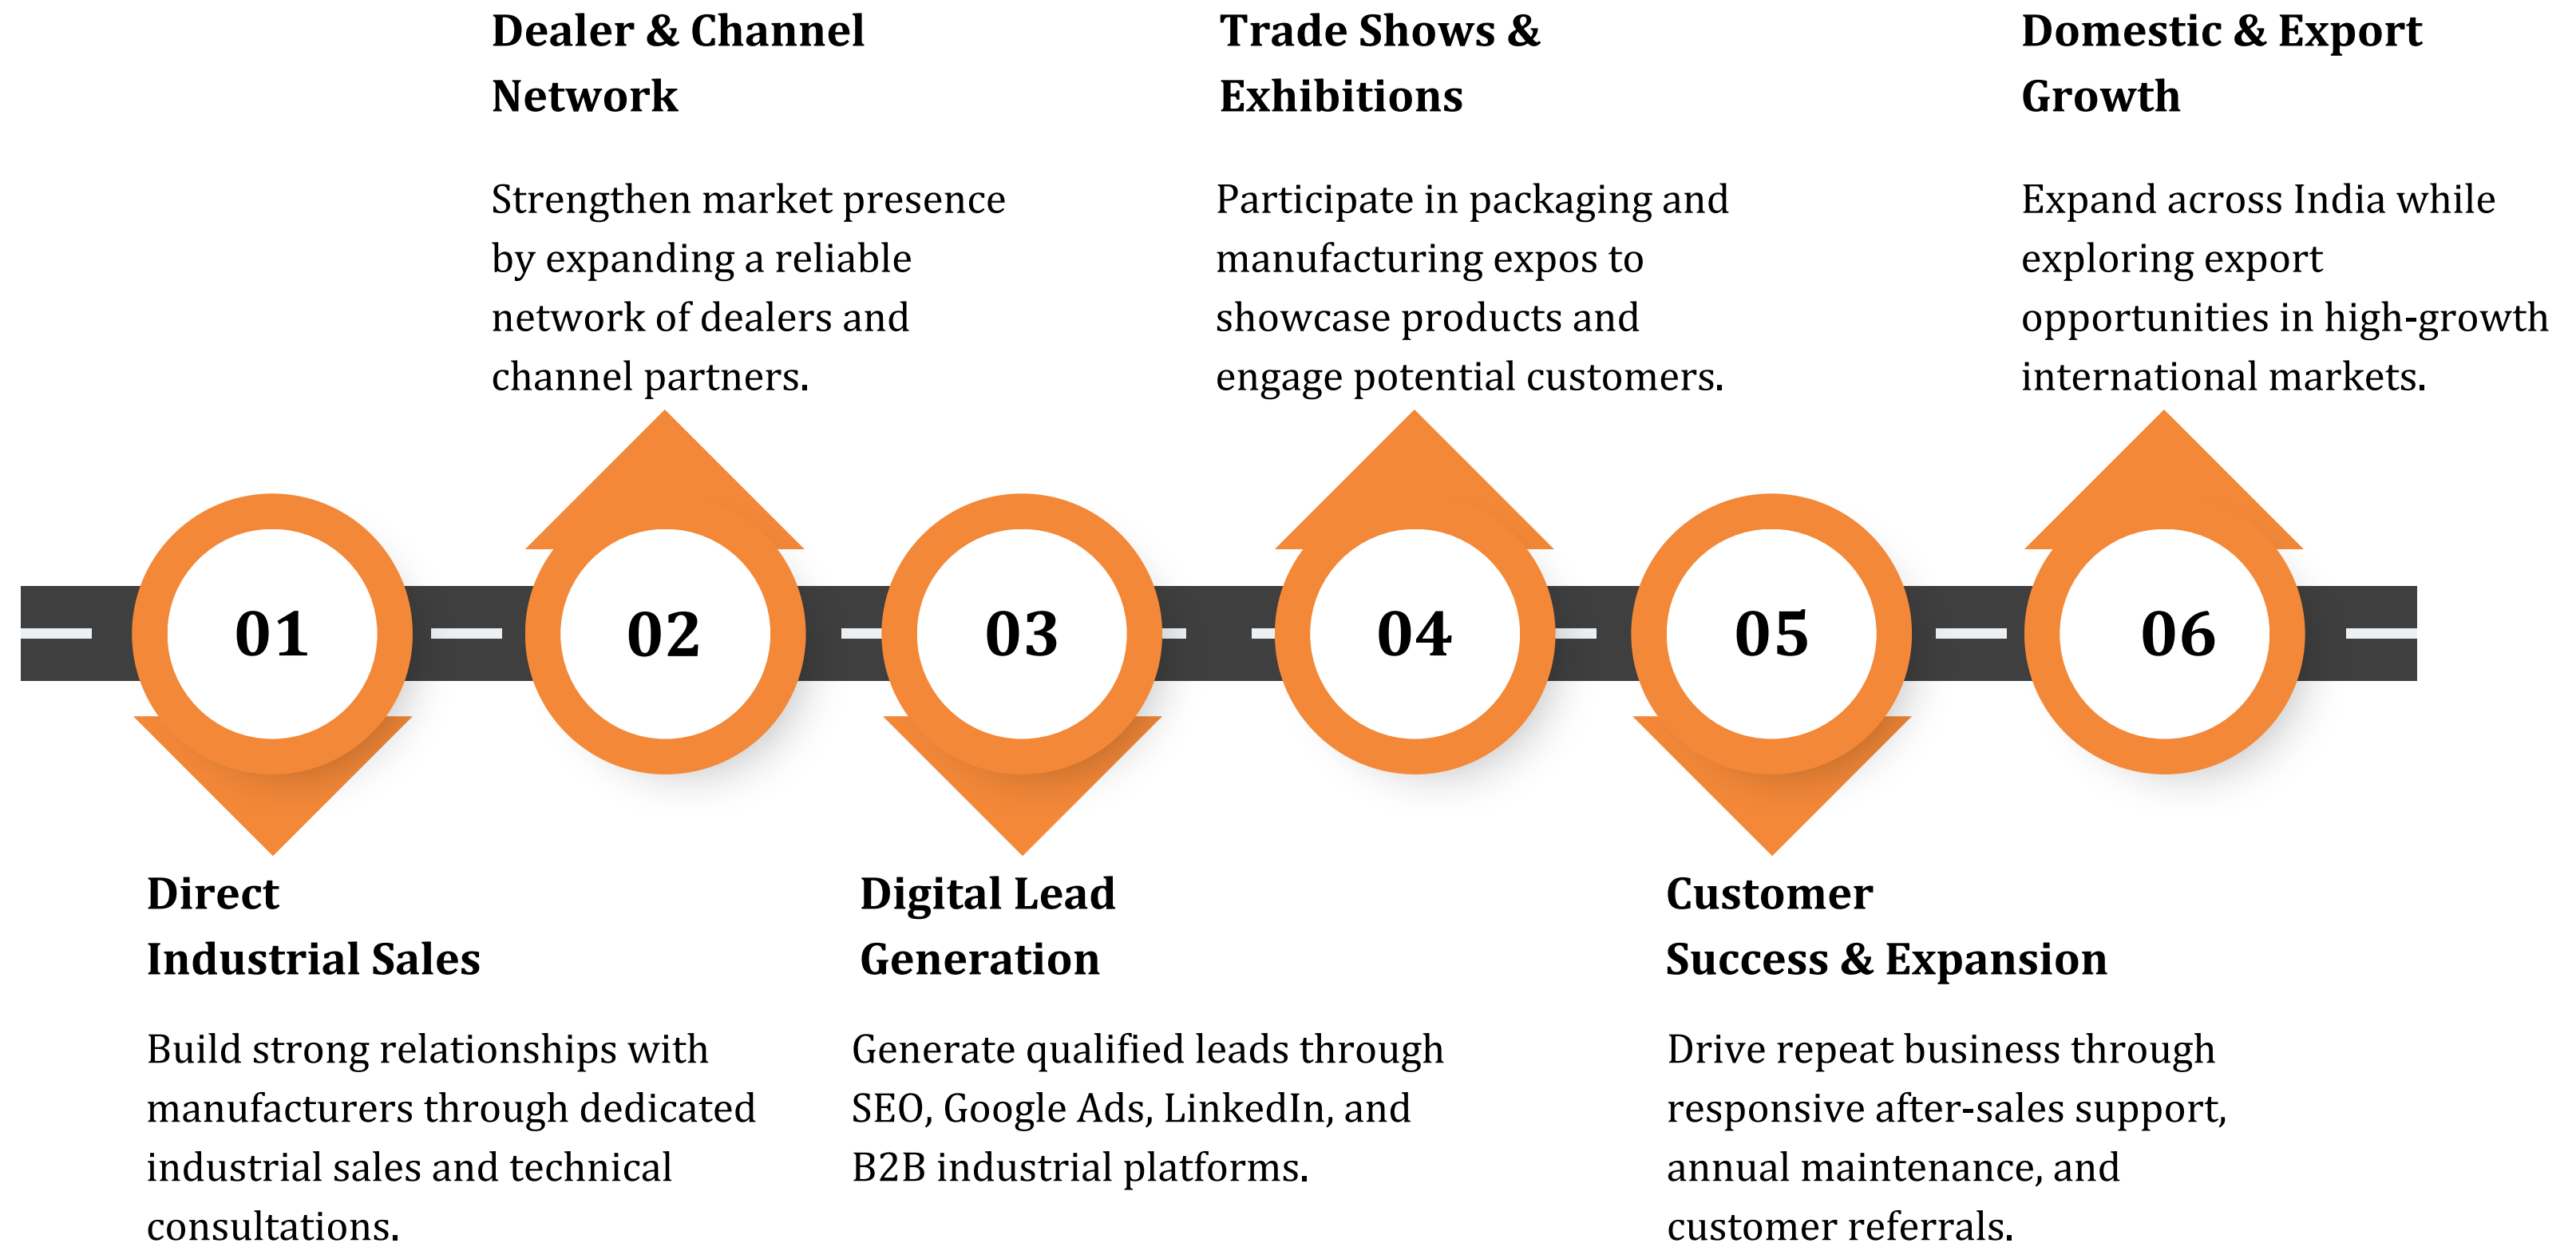

Export Sales

Spare Parts &  
Machine Upgrades

Machine Modernization  
& Upgrades

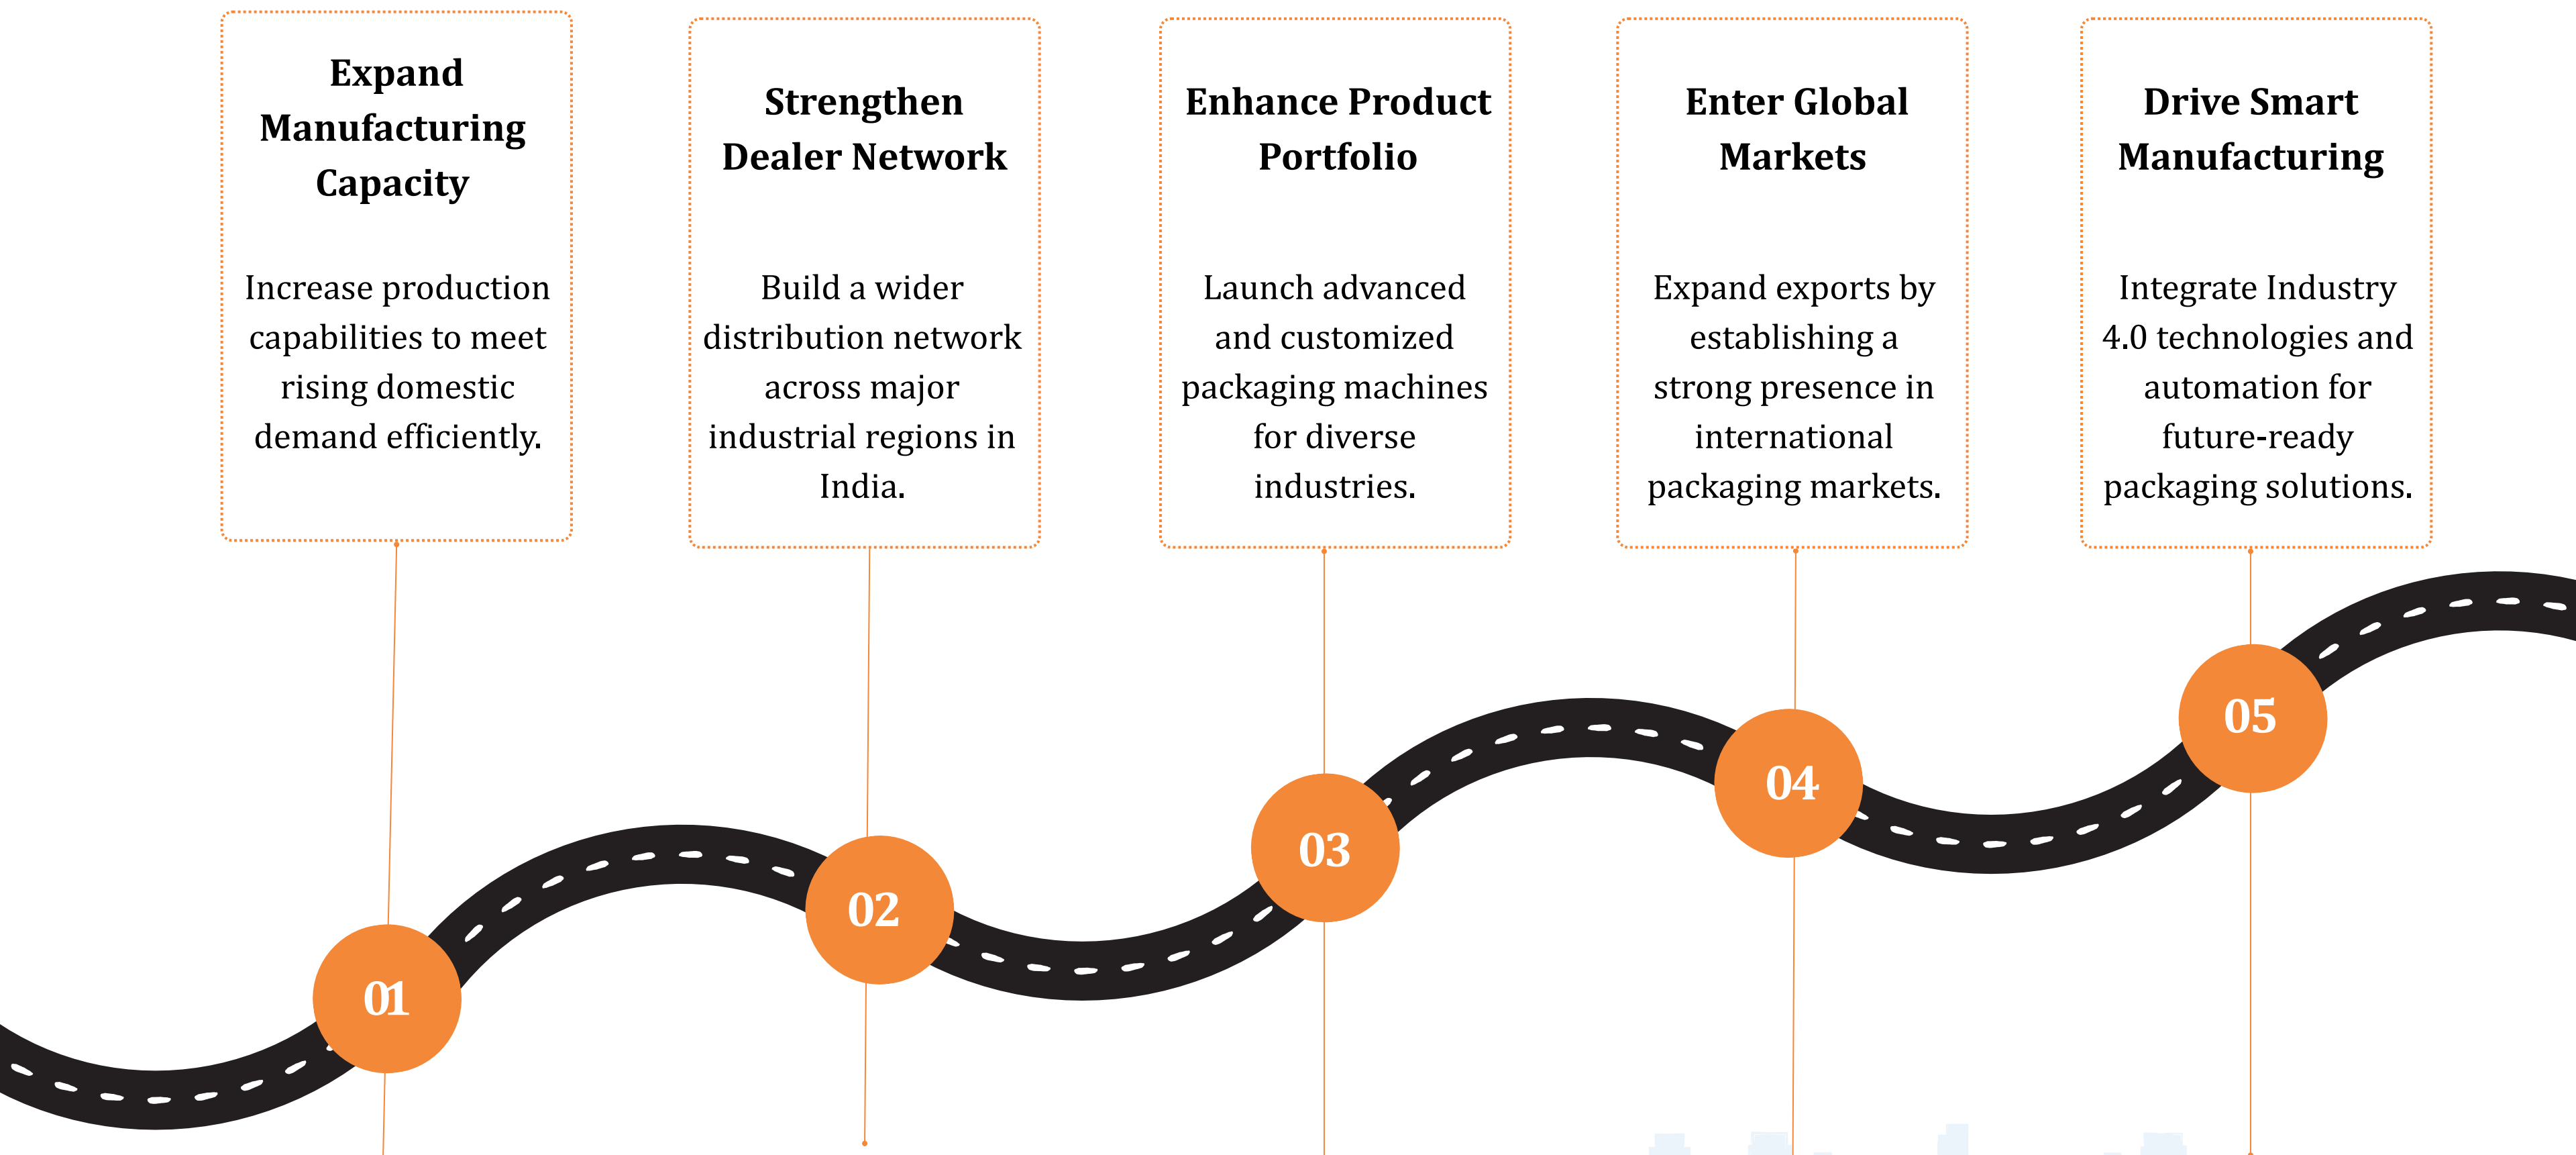

# Go-To-Market (G2M) Plan

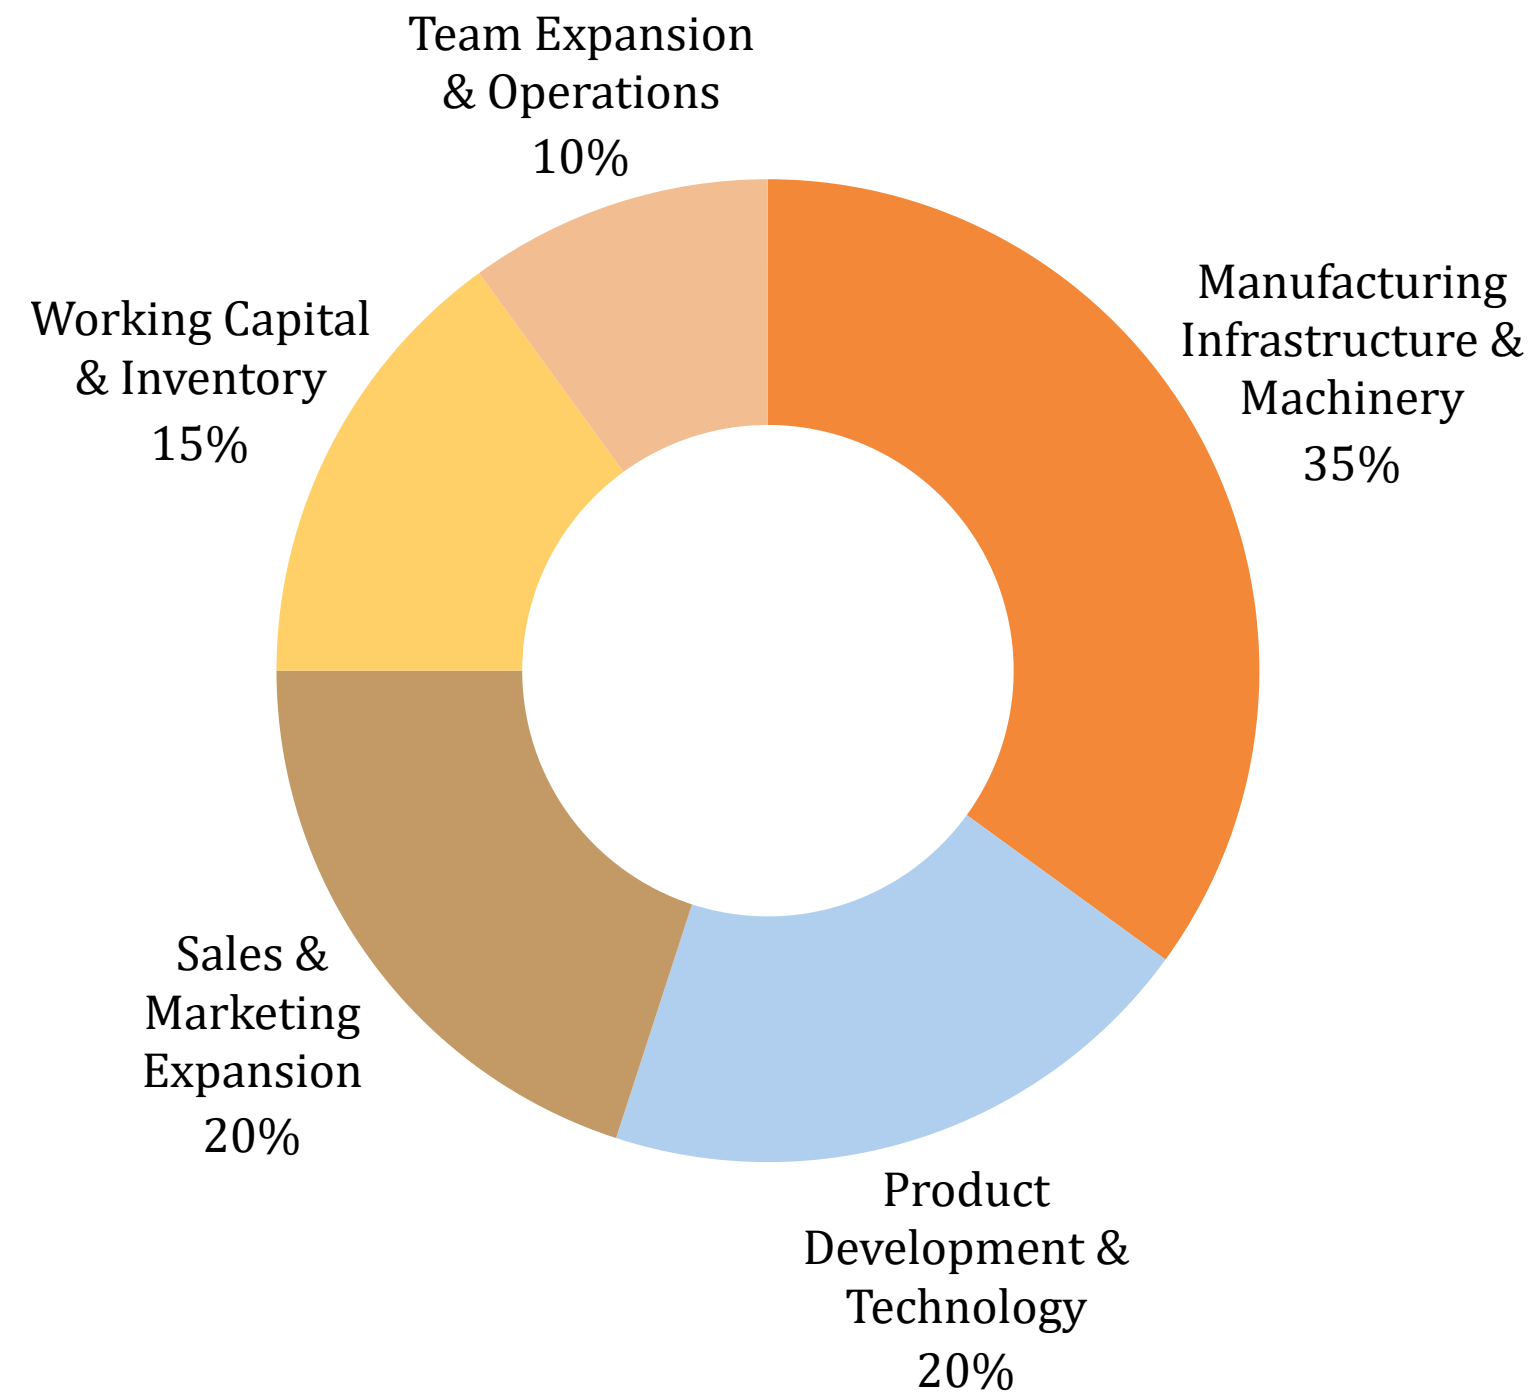

# Scale Up Plan

# Funding Ask

## Summary

The proposed investment will enable SUNTECH AND ALLIED INDUSTRIES to expand production capabilities, accelerate market growth, and strengthen its position in the packaging automation industry. The funds will support sustainable scaling through innovation, operational excellence, and customer acquisition.

# Meet Our Team

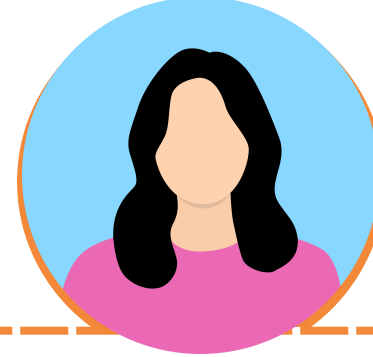

**Shrinivas Mukund Reddy**

(Founder & CEO)

Education: B.E. (Electronics)

Experience: 12+ Years in  
Marketing & Sales
